

Appels à projets 2009

Liste des projets sélectionnés

N° d'AAP	N° de projet	Nom court	Titre long	Déposant	Unité
2009-01	0901-001	Nitrogen fixation in mycorrhizal symbioses of Ceratonia siliqua	Has Ceratonia siliqua set up a joint venture with mycorrhizal and nitrogen fixing symbioses? Potential for early tree growth and orchards implantations	Prin Yves	LSTM
	0901-002	DryLand BioIce	Agriculture sources of atmospheric biological ice nucleators in dryland cropping systems	Morris Cindy E.	AVI-PATHO
	0901-005	SeqLeg	Coupling of C, N & P biogeochemical cycles in nodulated legume rhizosphere in agroecosystems of reference areas of the Mediterranean basin	Drevon Jean-Jacques	Eco&Sols
	0901-006	Non-destructive quality phenotyping of mandarins	Development of a non-destructive near infrared spectroscopic phenotyping methodology for mandarin fruits as an aid to the study of phenotypic variability in response to water stress and to varietal selection	Self Guy	QualiSud
	0901-007	FruitMed	Men and Fruit trees around the Mediterranean: from domestication to present varietal and genetic diversities, from local management practices over time to contemporary international trading	Khadari Bouchaib	DAP
	0901-009	ISDA 2010-MED	International Symposium "Innovation and Sustainable Development in Agriculture and Food" – Organization of a Mediterranean working session	Devautour Hubert	Innovation
	0901-010	From plate to field	Conference « reconsidering food nutritional quality from the plate to the field »	Padilla Martine	MOISA
	0901-013	Land surface – atmosphere exchanges within hilly watersheds	Understanding land surface – atmosphere exchanges within a Tunisian hilly watershed devoted to agricultural activities : on the influence of upward and downward flows on energy and mass transfers	Jacob Frederic	LISAH
	0901-016	SAMAQQ 2030	Food Security in Mediterranean Areas in 2030: qualitative and quantitative issues	Padilla Martine	MOISA
	0901-019	MEDI-PALMS 2010	Organisation of an international workshop on Mediterranean palms	Tregear James	DIAPC
2009-02	0902-003	International Workshop on Tree Stability Modelling	International Workshop on Tree Stability Modelling	Fourcaud Thierry Almeras Tancrede	AMAP
	0902-007	PlantScan3D	Reconstruction of 3D geometric model of plant from laser scanner data	Boudon Frédéric Lauri Pierre Eric	DAP
	0902-008	Modelling of water and nutrients uptake by plant root systems	Modelling of water and nutrients uptake by plant root systems: a mathematical and numerical approach with explicit account of root system architecture	Doussan Claude Comte Myriam	EMMAH Laboratoire Jacques-Louis Lions
	0902-009	Genetic and architecture in Mascarocoffea	Population genetics and architectural-functional plant growth models. Application to Mascarocoffea (coffee trees natives from Madagascar) genetic resources preservation	Sabatier Sylvie De Reffye Philippe	AMAP
	0902-010	PHENOMENA	PHENOTyping by Modelisation of plant ENVironnement and Architecture	De Solan Benoît Pradal Christophe	EMMAH DAP (Virtual Plant)
	0902-011	Peach-Rot Ideotype Modelling (PRIMo)	A tool to conceive sustainable production systems _ case of the peach-brown rot couple	Quilot -Turion Bénédicte Ould Sidi Mohamed Mahmoud Hilgert Nadine	GALF PSH ASB
	0902-012	PMA09	Third International Symposium in the series Plant Growth Modeling, Simulation, Visualization and Applications	Jaeger Marc Lecoeur Jérémie	AMAP EPI DigiPlante LEPSE
	0902-013	Modelling plant enemies adaptation	Dynamics and evolution of life history traits in plant pathogens and pests	Ravigné Virginie Grognard Frédéric	BGPI COMORE INRIA
	0902-015	TDWG-Biodiversity information standards	Organization of the Agropolis session within the 'TDWG- Biodiversity Information Standards' 2009 annual meeting, Montpellier, 9-13 November	Barthelemy Daniel Pham Jean-Louis	AMAP DIAPC
	0902-016	VLS-LRC (Virtual Landscapes Languedoc Roussillon Catalonia)	A thematic network to reinforce regional collaborative projects in virtual landscape and ecosystem visualisation	Jaeger Marc Patow Gustavo Ariel	AMAP EPI DigiPlante Geometry and Graphics Group from the University of Girona
0902-018	Green Imaging	Coupling photon and proton imaging : towards a 3D functional imaging in plant	Verdeil Jean-Luc Conejero Geneviève	DAP PHIV BPMP	

La décision de financement des projets sélectionnés est conditionnée par la validation des budgets et par la fourniture des informations administratives et financières nécessaires. La liste des projets définitivement financés sera publiée au terme des instructions administratives et financières.

2009-01 : "Promouvoir les partenariats avec la Méditerranée"

2009-02 : "Plantes et écosystèmes numériques"
