

ROOT2017

MontpellierRoot2017 - Montpellier Lateral Root Workshop 2017

ABSTRACT

The objective of the requested funding was to support the organization of the Lateral Root Workshop 2017 held in Montpellier. The workshop was centered around young scientists (PhD and post-docs) and we provided grants for their travel and accommodation costs (10 speakers out of 20). The funding was also used to organize a social event on the first evening of the meeting and for 2 days-organization (coffee breaks and lunches) for 64 persons. This event allowed us to maintain a high level of interactions between the participants, and to promote Montpellier as a centre of excellence for research on Root System Development.

Year : 2017

Project number : 1700-003

Type of funding : PC

Project type : SP

Research units in the network : AGAP DIADE LGDP

Start date : 2017-02-28

End date : 2017-12-31

Flagship project : no

Project leader : Benjamin Peret

Project leader's institution : INRA-INRAE

Project leader's RU : BPMP

Budget allocated : 8000 €

Total budget allocated (including co-financing) : 8000 €

Funding : Labex
