

# Rubber agroforestry practices in Northeast Thailand to maintain family farms income during immature period of the plantations.

## Rubber agroforestry practices in Northeast Thailand to maintain family farms income during immature period of the plantations.

### ABSTRACT

The objective of the study (done during the mobility period) is the understanding of the strategies of farmers for agroforestry practices during immature period of rubber trees and of the consequences on both rubber trees growing capabilities and farmers financial situation.

**Year :** 2016

**Project number :** 1502-203

**Type of funding :** AAP

**Project type :** AAP MOBILITE

**Research units in the network :**

**Start date :** 2016-05-05

**End date :** 2016-11-30

**Flagship project :** no

**Project leader :** Eric Penot

**Project leader's institution :** CIRAD

**Project leader's RU :** INNOVATION

**Budget allocated :** 4000 €

**Total budget allocated ( including co-financing ) :** 4000 €

**Funding :** Labex
