

Ad hoc support : MIAM

Methods of Investigating Food and Eating

ABSTRACT

Whereas there is a very large and productive community of research on food in France and French-speaking countries, no book presenting the methods of studying food, eating and eaters has been published in French language. Such a methodological book lacks and would give to this research community, especially to its part that is based in Montpellier, a greater visibility.

Keywords : 1. Exclu de la photothèque

Year : 2017

Project number : 1700-025

Type of funding : SP

Project type : PC

Research units in the network : INNOVATION CEE-M NUTRIPASS

Start date : 2018-11-28

End date : 2019-12-31

Flagship project : no

Project leader : Olivier Lepiller

Project leader's institution : CIRAD

Project leader's RU : MOISA

Budget allocated : 2500 €

Total budget allocated (including co-financing) : 2500 €

Funding : Labex

GOAL

The cycle of seminars MIAM aims at gathering a wide and multidisciplinary range of specialists of different methods in order to make a methodological manual, easily usable and covering the scope of contemporary methods used in sociology, anthropology, political sciences, economics, management sciences, marketing, consumers sciences and nutrition to study food, eating and eaters.

Organizers: Nicolas BRICAS (Chaire UNESCO Alimentation du Monde; Cirad, Moisa), Muriel FIGUIÉ (Cirad, Moisa), Tristan FOURNIER (CNRS, Iris), Olivier LEPILLER (Cirad, Moisa)

RESULTS

Planned MIAM agenda:

28 November 2017 MIAM#1

16 January 2018 MIAM#2

15 February 2018 MIAM#3

13 March 2018 MIAM#4

10 April 2018 MIAM#5

15 May MIAM#6

12 June MIAM#7

10 July MIAM#8

11 September MIAM#9

09 October MIAM#10

13 November MIAM#11

11 December MIAM#12

+ 2019 dates: to be defined

Expected contributions on:

Ethno-accounting
Interventional research
Nutritional e-epidemiology and online questionnaire
Quantitative measurement of food consumption
Focus group
Visual methods
Experimental restaurants
Experimental economics
Food barometers and recurring surveys
Connected devices and self-quantification
Household economics
Food (auto-)biographies and food trajectories
Methods for studying the eaters' risks perception and risks management
Methods for studying food security and food satisfaction

PERSPECTIVES

The MIAM seminars cycle aims at gathering the authors of the future methodological book, to be published in 2019 or 2020.
