MIAM

Méthodes d’Investigation de l’Alimentation et des Mangeurs

ABSTRACT

Whereas there is a very large and productive community of research on food in France and French-speaking countries, no book presenting the methods of studying food, eating and eaters has been published in French language. Such a methodological book lacks and would give to this research community, especially to its part that is based in Montpellier, a greater visibility.

Keywords: 1. Exclu de la photothèque

Year: 2017
Project number: 1700-025
Type of funding: PC
Project type: SP
Research units in the network: INNOVATION CEE-M NUTRIPASS
Start date: 2018-11-28
End date: 2019-12-31
Flagship project: no

Project leader: Olivier Lepiller
Project leader's institution: CIRAD
Project leader's RU: MOISA

Budget allocated: 2500 €
Total budget allocated (including co-financing): 2500 €
Funding: Labex

GOAL

The cycle of seminars MIAM aims at gathering a wide and multidisciplinary range of specialists of different methdos in order to make a methodological manual, easily usable and covering the scope of contemporary methods used in sociology, anthropology, political sciences, economics, management sciences, marketing, consumers sciences and nutrition to study food, eating and eaters.
Organizers: Nicolas BRICAS (Chaire UNESCO Alimentation du Monde; Cirad, Moisa), Muriel FIGUIÉ (Cirad, Moisa), Tristan FOURNIER (CNRS, Iris), Olivier LEPILLER (Cirad, Moisa)

RESULTS

Planned MIAM agenda:

28 November 2017 MIAM#1
16 January 2018 MIAM#2
15 February 2018 MIAM#3
13 March 2018 MIAM#4
10 April 2018 MIAM#5
15 May MIAM#6
12 June MIAM#7
10 July MIAM#8
11 September MIAM#9
09 October MIAM#10
13 November MIAM#11  
11 December MIAM#12  
+ 2019 dates: to be defined

Expected contributions on:

- Ethno-accounting
- Interventional research
- Nutritional e-epidemiology and online questionnaire
- Quantitative measurement of food consumption
- Focus group
- Visual methods
- Experimental restaurants
- Experimental economics
- Food barometers and recurring surveys
- Connected devices and self-quantification
- Household economics
- Food (auto-)biographies and food trajectories
- Methods for studying the eaters’ risks perception and risks management
- Methods for studying food security and food satisfaction

**PERSPECTIVES**

The MIAM seminars cycle aims at gathering the authors of the future methodological book, to be published in 2019 or 2020.
