

Ad hoc support

SilviLaser 2015 & RSDI workshop- ISPRS Geospatial Week 2015

ABSTRACT

Support for the organisation of the SilviLaser conference and the RSDI (Remote Sensing Data Infrastructures) workshop within the ISPRS (International Society for Photogrammetry and Remote Sensing) geospatial week - Grande Motte from 27 to 3 October 2015.

SilviLaser: conference focusing on "Lidar" technology applied to the monitoring of forest ecosystems. (organised jointly with the ISPRS LaserScanning conference: more focused on urban applications, structure monitoring, or geophysics). => bringing the two events together brings the two communities closer together

RSDI Workshop (first edition)

Year : 2015

Project number : 1500-012

Type of funding : SP

Project type : PC

Research units in the network : AMAP

Start date : 2015-02-23

End date : 2015-11-15

Flagship project : no

Project leader : Sylvie Durrieu

Project leader's institution : IRSTEA-INRAE-INRAE

Project leader's RU : TETIS

Budget allocated : 5000 €

Total budget allocated (including co-financing) : 5000 €

Funding : Labex

GOAL

To initiate the creation of an international network between the scientific community and public actors using remote sensing for land management - sharing of experience on the development of infrastructure for making remote sensing data available
