

Evolutionary potential of *Drosophila suzukii*, an invasive agricultural pest

Gene flow, specialization, and behavior of *Drosophila suzukii*, an invasive insect of major agro-economic importance on small fruits

ABSTRACT

The research planned is a cornerstone in the foundation of a long-term international collaboration through the support to this scientific visit. Our overarching goal is to enable the development of rational and durable management approaches for *Drosophila suzukii*.

Year : 2015

Project number : 1502-207

Type of funding : AAP MOBILITE

Project type : AAP

Research units in the network :

Start date : 2016-08-15

End date : 2017-08-14

Flagship project : no

Project leader : Arnaud Estoup

Project leader's institution : INRA-INRAE

Project leader's RU : CBGP

Budget allocated : 20000 €

Total budget allocated (including co-financing) : 20000 €

Funding : Labex
