

Ad hoc support

Rencontres multidisciplinaires pour une riziculture durable en Tanzanie

ABSTRACT

The objective of this request for ad hoc support is to enable the construction of an integrated and multidisciplinary research group bringing together scientists from three Labex Agro teams:

- E. Hébrard CR1, N. Poulicard post-doctoral student and J. Hubert doctoral student from the EAVir Emergence of Viral Adaptation team of the UMR IPME,
- M. Sester of the Carabe team Characterisation and integrated management of risks of biotic origin of the UR AIDA,
- D. Tharreau from the BECphy team, Evolutionary Biology of Phytopathogenic Fungi of the UMR BGPI,
- as well as personnel from two private companies:
- E. Loiseau, president and C. Bonneville phytopathologist at Promété (Narbonne)
- G. Anderson, general manager of Kilombero Plantation Limited (Tanzania).

This support follows on from assistance provided by the Foundation during 2015.

Year : 2016

Project number : 1600-001

Type of funding : SP

Project type : PC

Research units in the network : AIDA BGPI-PHIM

Start date : 2016-03-07

End date : 2016-09-30

Flagship project : no

Project leader : Eugénie Hébrard

Project leader's institution : IRD

Project leader's RU : IPME-PHIM

Budget allocated : 3996 €

Total budget allocated (including co-financing) : 3996 €

Funding : Labex
