## Journée IDEA ( Drone

### ABSTRACT

The event is primarily intended to be an information and awareness-raising day, not a scientific seminar. The idea is to address the questions that any researcher wishing to use drones asks (or more precisely, should ask), to illustrate through feedback the advantages and disadvantages of these observation vectors, the questions they raise, both practical and ethical, and to allow the local community to discover/know each other so that everyone can see where to turn.

**Year :** 2016

**Project number :** 1600-019

**Type of funding :** SP

**Project type :** PC

**Research units in the network :** AGAP F&S TETIS

**Start date :** 2016-10-17

**End date :** 2016-11-17

**Flagship project :** no

**Project leader :** Philippe Borianne

**Project leader's institution :** CIRAD

**Project leader's RU :** AMAP

**Budget allocated :** 1500 €

**Total budget allocated ( including co-financing) :** 1500 €

**Funding :** Labex
