

Ad hoc support : ASIC 2020

28th biannual conference of the ASIC

ABSTRACT

One of the objectives of the conference is to bring together a significant part of the researchers from the South involved in these research themes, and to give voice to young scientists and women scientists. The local organizing committee of the conference is requesting support from Agropolis Fondation for the realization of this event. The financial request corresponds to a support for the travel of invited scientists: 4 young researchers from the South, as well as 4 PhD students from the South.

Year : 2019

Project number : 1900-015

Type of funding : SP

Project type : PC

Research units in the network : IPME-PHIM QUALISUD

Start date : 2020-01-01

End date : 2020-10-15

Flagship project : no

Project leader : Thierry Joet

Project leader's institution : IRD

Project leader's RU : DIADE

Budget allocated : 15000 €

Total budget allocated (including co-financing) : 27200 €

Funding : labex

GOAL

The local organising committee of the ASIC 2020 conference includes members of the research units AGAP, DIADE, IPME and HORTSYS, which are de facto partners of the ASIC association in the organisation of this event. The conference budget is managed by the ASIC association, with logistical support from the Alpha visa company. The DIADE unit is requesting a one-off grant from the Agropolis Foundation to participate in the organisation of this event, and will be responsible for the financial management of the amounts allocated by Agropolis Foundation. The budget requested concerns the costs of transport, accommodation and registration (meals) of young scientists from the South and PhD students. A specific application procedure for young researchers and PhD students from the South has been set up by the conference organisers. The selection of the candidates will be made by the scientific committee, during the evaluation of the abstracts and application files (March 2020).
