

PCI

Peer Community in - A free recommendation process of scientific preprints

ABSTRACT

The "Peer Community in" (PCI) - <https://peercommunityin.org/> - is a non-profit scientific organization that aims to create specific communities of researchers reviewing and recommending, for free, unpublished preprints in their field (i.e. unpublished articles deposited in open online archives like arXiv.org and bioRxiv.org). These specific communities are entitled Peer Community in X, e.g. Peer Community in Evolutionary Biology (PCI Evol Biol), Peer Community in Ecology (PCI Ecol) and Peer Community in Paleontology (PCI Paleo).

A short video about the PCI project can be seen here: <https://www.youtube.com/watch?v=4PZhpnC8ww0>

Year : 2020

Project number : 2000-000

Type of funding : PP

Project type : PC

Research units in the network : CBGP

Start date : 2020-06-01

End date : 2022-03-31

Flagship project : no

Project leader : Denis Bourguet

Project leader's institution : INRA-INRAE

Project leader's RU : CBGP

Budget allocated : 3000 €

Total budget allocated (including co-financing) : 3000 €

Funding : Labex
