1st International Conference: Organic Rice Production Systems

PERSPECTIVES

Numerous interviews and a survey carried out on the last day of the conference involving a majority of the participants unanimously indicated that:

- ▶ A 2nd international conference was hoped for
- within 2 or 3 years
- ▶ on a similar format to that which was proposed in Montpellier: equity of expression between researchers and rice producers sessions organised at different scales: cropping system, production system, processing/commercialisation chain and territories all sessions plenary field trip.
