

Listen and understand - International Network for Cooperative Production of online Training Ressources

OBJECTIFS

- To produce a 4 ECTS distance learning module: "Evaluation of change in family farming and natural resource management" (ATSAM).
- To articulate the ATSAM module with four other modules already co-produced: "Qualitative survey methods applied to natural resource management" available in French, Spanish and English.
- Extend the collective production in Africa and Latin America to other structures via coordination by RUFORUM and CATIE.

ACTIONS

- Joint production of a "pedagogical grain" with Makerere University: a face-to-face workshop for a distance media writing training
- Production of the ATSAM module
- Integration in an e-learning platform built and distributed at three levels: Montpellier (Agropolis), France (Agreenium) and Europe/Africa/Latin America (coordinated by RUFORUM and CATIE respectively)

RESULTATS

- Production of ATSAM: training module (4 ECTS) of 60 hours, Master and PhD level
<http://entretiens.iamm.fr/course/index.php?categoryid=2>
- The association of the ATSAM module with a collection of existing elearnings
- A multidisciplinary (agriculture and educational sciences) and multi-professional team (teachers, professors, researchers, educators, media writers, multimedia technicians) in Africa capable of designing and producing online resources
- A triple-level organisation (Montpellier/France/International) for e-production and dissemination

PERSPECTIVES

Monitor the implementation and use of the ATSAM module. Carry out the translation into Spanish. Communicate on the existence and use of ATSAM. To study other needs for e-learning modules.
